"I had headache and pain in the side."

If you will read the letter of Mrs. McKenna, given below, you will find that she says: "I had uterine disease, also headache and pain in the side."

Uterine disease is a common cause of headache, backache, sideache, nervousness and other womanly ills. Dr. Pierce's Favorite Prescription cures uterine disease, and, therefore, cures the headache, sideache, etc., which result from a diseased condition of the womanly organism. "Favorite Prescription" is the best medicine for women. It establishes regularity, dries weakening drains, heals inflammation and ulceration and cures female weakness.

Sick women are invited to consult Doctor Pierce by letter, free. All correspondence held in strict privacy and sacred secrecy. Address Dr. R. V. Pierce, Buffalo, N. Y.

"I took two bottles of your Favorite Prescription, and the result was a complete cure of my uterine disease, and the headache and pain in the side. After taking your medicine I got well. You may publish this or use it in any way you think best, as I cannot speak too highly of Dr. Pierce and his medicine."

Dr. Pierce's Common Sense Medical Adviser, paper covers, containing 1000 large pages, is sent free on receipt of 21 one-cent stamps, to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

AFTER THE PRESIDENT?
It is stated in Boston on high authority that anarchists flocked to that city from various sections of New England on Tuesday, the day before President Roosevelt's visit to Boston and Cambridge, and it is hinted that the presence of the red flag followers was in consequence of a plot to do bodily harm to the nation's chief executive. There is no positive proof that a plot to attempt Mr. Roosevelt's life existed, but in police circles the arrival of a lot of anarchists from such places as Providence, where riots have been frequent of late, at the same time as the President came, is looked upon with suspicion.

The officers, knowing of the matter, do not think the lawless element were in Boston for any good purpose, and it is stated that several instances of a suspicious nature were observed during the day.

The report is that the first intimation came from the secret service men at Washington, who wired the Boston police asking what the anarchists in Boston were doing. The reply was given that little was known about the doings of men of that class in Boston, but that information the government detectives had is not known, but the precaution was taken to prevent the carrying out of any conspiracy which might exist.

An armed bodyguard came out from Washington with the President, and he was never out of their sight. Then twenty plain clothes men from the Boston inspector's department were ordered to keep close at hand during his stay, and the detail of police was considered unusually large.

Just what occurred during the visit to Boston which ended to still further arouse the suspicions of the detectives cannot be learned. One circumstance which showed how keenly the President was guarded occurred at the station a few minutes before the President's train pulled out at midnight. A stockily built Italian came through the gate to take the 12:03 train for Providence.

This train was standing just beside the President's, and as the Italian walked in half a dozen men in evening dress and several officers in ordinary clothing nearly surrounded him and escorted him down the platform until he got aboard his train. Then a watchful eye was kept upon him until the President's train started.

AN AMERICAN FLEECE.
Twenty of the cleverest and most dangerous swindlers from America and the Continent have been in London for the purpose of fleecing fashionable coronation visitors.

They have been frustrated by the London detectives and have fled the country. The men in question numbering about 20, and split into small gangs, found quarters in the West End, though the hotels were barred to them. One night last week a group of five Americans entered a well-known West End restaurant and got to chatting with a man whom one of the five thought he had met years ago. They went back to their chambers in Piccadilly, where the victim lost \$5,000 at cards and dice, while the bogus friend also lost a large amount, which he paid by check.

The \$5,000 was all the victim had about him, but he gave an I. O. U. for an additional sum. The men were to meet again shortly when the I. O. U. was to be met. The one who had been fleeced communicated with the police with the result that his "friend" was found to be a well-known swindler and a member of a gang.

The detectives arranged that a few days later this gang and the leaders of other gangs should be arrested, but the sharpers were seized with alarm and by Tuesday morning they had fled the country, leaving behind them only their subordinate. One gang made money through its flight. Proceeding to Paris it victimized a wealthy visitor to the extent of \$35,000.

DEMOUSQUE POLICY IN THE PHILIPPINES.—At a meeting of the New England Anti-Imperialist League in Faneuil Hall, Boston, Thursday night, W. Bourke Cockran, of New York, made a speech. Mr. Cockran first took Cuba as the text for his remarks upon the effects and distinguishing characteristics of imperialism. He charged bad faith in the treatment of Cuba. American oppression of the Cubans, he contended, had been more scientific, more drastic and more terrible than that of Spain, because it was being undertaken for the purpose of enriching a syndicate. The treatment of the Filipino by the United States, Mr. Cockran declared, was the "blackest page in history." He was confident imperialism had run its course and that the whole question would be settled at the next election. In outlining what he believed this country should do, he said: "We ask that the chiefs of the Filipino people come before us and inform us what they want, that we may judge whether they are fit for the high responsibilities of citizenship, or whether they be held in vassalage."

GROWTH OF THE SOUTH.
The Census Bureau has issued a report on the combined textile industry of the United States for 1900. The branches included in the industry follow: Cotton manufacturers, including cotton goods and cotton small wares; wool manufacturers, including woolen goods, worsted goods, carpets and rugs other than rag; felt goods and wool hats; silk manufacturers, hosiery and knit goods; cordage and twine, linen goods, jute goods and dyeing and finishing textiles.

The report says: "The sudden springing of the southern States into prominence in the cotton industry is shown strikingly by the total increase of capital from \$20,413,414 in 1880 to \$62,623,729 in 1890, and to \$137,172,561 in 1900. Ten years ago, and also in 1880, Georgia was 'easily the leader among the southern States, but it has now been surpassed by both South Carolina and North Carolina, in each of which States the value of products was not much less than in the States of Maine and New Hampshire, where the industry has been established for half a century, and in the number of hands employed both North and South Carolina surpass both of these New England States. The growth in Alabama has been also very great, the amount of capital having almost exactly quadrupled in 10 years."
